

GREAT WAR ENTERING ITS CRUCIAL STAGE

MILITARY OBSERVERS EXPECT
SOME DECISIVE TURNS IN
NEAR FUTURE.

JAPS MAY SEND BIG ARMY

Tokio Reports Indicate the Mikado's
Men Will Soon Be Help-
ing the Allies.

WAR SUMMARY.

(Associated Press)
Three points stand out in today's
news of the great war:

In Flanders the Germans have
launched their expected new at-
tack, which is regarded by the
allies as the supreme effort to
gain the Straits of Dover.

In Russian Poland immense
armies of the Czar are pushing
forward with surprising speed
and are threatening the Ger-
mans on their home soil. The
people of Silesia are reported to
be fleeing before the Russians
within 200 miles of Berlin.

Tokio reports that a Japanese
army may be sent to the west to
assist the British and French on
the battlefield of Europe.

EXPECT BIG RESULTS.

European military observers agree
that the war has entered upon its
crucial stage and that the next week may
mark a definite turn of events.

RUSH NEW GUNS.

Fresh troops, and new guns from
the Krupp works, have been rushed
to the battle line which extends from
Dixmunde south to Arras.

GERMANS REPULSED.

The Germans struck their first new
blow at Dixmunde and in the region
of Ppres, but were repulsed according
to a report from the French war of-
fice.

RUSSIANS NUDER SWING.

The Petrograd war office reports
that the enormous Russian forces are at
last under full swing. Unless checked
soon the Russian advance may com-
pel Germany to withdraw her troops
from France and Belgium.

TURKS SUFFER HEAVILY.

According to another report from
Petrograd the Turks have suffered
heavily in a futile attack on the Rus-
sian position at Koprakelu.

MAY USE CANAL.

Seven British warships are re-
ported to be proceeding to the Panama
canal which for the first time may be
put to the usage of war. The British
warships may pass through the canal
to the Pacific to avenge the defeat of
British cruisers there by German war
ships.

NEUTRALS TO FRONT.

France has finally decided to per-
mit the military observers of neutral
nations to go to the battle front.

GERMANY PREPARING FOR WINTER CAMPAIGN

Copenhagen, Nov. 9.—According to
a Berlin telegram Germany is making
enormous preparations for the winter
campaign with tents, sleighs and fur
coats for the entire army.

Destroyed Two Tons of Dressed Meat at Pawpaw

Proprietor of Meat Market Made
Voluntary Sacrifice to
Stop Criticism

(Special to The Telegraph)

Pawpaw, Nov. 9.—All day Sat-
urday, Sunday and today forces of men
have been at work digging trenches
for the burial of infected and exposed
live stock on the Wm. Bend farm and
at the slaughter house stock yards
here, preparatory to the destruction
of the animals as ordered by the fed-
eral and state inspectors, and it is ex-
pected that by nightfall the sacrifice
to stop the spread of the epidemic in
this vicinity will have been com-
pleted.

Two Tons of Meat.

The Pawpaw meat market is again
open for business, following the fum-
igation of the place, which it now de-
velops had not been exposed to the
disease in an appreciable extent. To
allay all criticism, however, the pro-
prietor of the establishment volun-
tarily destroyed about two tons of
meat which had been butchered be-
fore the disease made its appearance
in this vicinity, and which could only
have been infected by men entering
the cooler after they had worked with
a herd of cattle, which afterward de-
veloped the foot and mouth disease.
The situation here is now most en-
couraging. The authorities are san-
guine that the epidemic has been
stopped in this vicinity.

INSPECTION AT AMBOY.

Amboy, Nov. 9.—An inspector con-
nected officially with the state live
stock commission, has completed an
examination of the cattle and sheep
in this vicinity which were reported
to have contracted foot and mouth
disease, and he states that the mal-
ady does not exist in this vicinity. He
states that he has found traces of
disease common to them in this neigh-
borhood, but that it is not the foot
and mouth disease.

DIXON SILVER CORNET BAND

The Dixon Silver Cornet Band was
recalled by Briggs' cartoon, "The
Days of Real Sport," in Sunday's Chi-
cago Tribune, for in depicting an old
time political parade during the times
of Harrison and Morton, Briggs re-
membered how the base drum and
drummer of the old Dixon band look-
ed, and he struck 'em in the picture.

SESSION OF SORROW TONIGHT

Following the regular business
meeting of the Dixon lodge B. P. O. E.
this evening, which every member
is urged to attend, a Session of Sor-
row will be held for the late Commis-
sioner M. J. Gannon.

Big Crowd Marked First Night of Catholic Bazar

St. Patrick's Catholic church's an-
nual fall fair and bazaar was most
successfully and auspiciously opened
at Rosbrook's hall Saturday evening,
the attendance being the largest first
night crowds in the history of the
fairs given by this church. The
numerous booths in the hall were
well patronized while the dance floor
was thronged during the entire even-
ing. Music for the dancing was by
the Marquette orchestra. The fair
will continue every night this week,

DEATH FOLLOWED ACCIDENT SUFFERED BY LEON PALMER

PERITONITIS, WHICH FOLLOWED
ACCIDENT, CAUSED DEATH
SUNDAY MORNING.

WAS CRUSHED AGAINST MACHINE

Team, Starting to Run Away, Had
Jammed Unfortunate Man
Against Shredder.

Leon Palmer passed away at 1:30
o'clock Sunday morning as a result
of injuries he sustained while at
work on the Charles W. Brierton
farm, three and one-half miles north-
east of Dixon on Friday morning.
Death was due to peritonitis which
followed a perforation of the smaller
intestines.

The unfortunate man was crushed
between a farm wagon and a corn
shredder when the fractious team
owned by Claude Harrison suddenly
became frightened and crowded him
into the shredder. The accident
happened Friday morning about
10:30 o'clock, and while there were
a number of men present, only one
of them saw the accident. C. W.
Brierton was standing beside Pal-
mer when the team started and he too
was struck and knocked down, but
in being struck he was knocked clear
of the shredder and was not injured.

Crushed Against Machine.

The deceased had been working as
a man machine for Lewis Saver, who
operates the shredder, and was
standing beside the machine looking
into the blower and just a little
ahead of the farm wagon. When the
Harrington team started, they swerved
into the machine crushing Palmer
against the machine. Mr. Brierton
seeing the predicament of Palmer,
grabbed the team and led them away
from the machine. Palmer dropped to
the ground and rolled under the
machine, and the men about the farm

CORSET FACTORY CLOSES THIS WEEK

GOSSARD COMPANY WILL MOVE
EQUIPMENT TO CHICAGO
PLANT.

The Gossard corset factory in this
city will be closed for an indefinite
period Saturday night, announcement
of the closing of the local plant hav-
ing been made to the employees, who
have been offered positions in the Chi-
cago factory of the company. The ma-
chinery of the Dixon plant will be
shipped to Chicago, where a number
of the smaller plants of the company
are being consolidated.

USED BEER BOTTLE ON HEAD

Mike Grygal was arrested today on
a warrant issued by Police Magistrate
W. G. Kent charging him with as-
sault and battery. He will be arraign-
ed before Magistrate Kent this even-
ing at 7:30 for hearing. Grygal is
charged with striking Steve Guzma
over the head with a beer bottle at
the cement works Sunday evening.

This evening will be the young
people's night and all of the young
men in Dixon and vicinity are invited
to be present with their lady friends.
The invitation includes married and
unmarried men alike and it is hoped
to make the evening an exceptionally
happy one.

BABY DAUGHTER PASSED AWAY

Mildred Ruth, the baby daughter
of Martin Lenox, passed away at
about 11 o'clock Sunday evening,
death resulting from cholera infantum,
with which she had suffered
for the past two weeks. Funeral
services will be held at the home at 2
o'clock Tuesday afternoon with bur-
ial at the Palmyra cemetery.

FIRE IN ASPHALT MELTER

The fire department was called to
extinguish a blaze which started in
Clubb & Hughes' asphalt tank on
College avenue Saturday evening at
about 7:45 o'clock. The asphalt,
which is melted before being put on
the new pavement, became over-
heated and ignited. No damage re-
sulted from the fire.

Sycamore Man Shot Chief Of Police And Self

Sam Atkinson, Arrested On
Wife's Complaint, Figures
In Tragedy

(Special to the Telegraph.)

DeKalb, Nov. 9.—At 3 o'clock
this afternoon Chief of Police Joe
Ogdon was still alive, but the attend-
ing surgeons hold out little hope for
his recovery. In case he should sur-
vive he will be totally blind.

Sycamore, Ill., Nov. 9.—Chief of
Police Joseph Ogden was shot in the
head last night by Samuel Atkinson
of this city. Ogden is unconscious in
the Municipal hospital and his con-
dition is critical. He had arrested
Atkinson on complaint of Mrs. Atkin-
son and was on his way with him to
the police station. Atkinson after-
ward shot himself through the head,
killing himself instantly. He was
about 60 years old and estranged
from his family, and it was alleged
had made threats against his wife.

GETS COMMISSION DIXON COMMANDER

CAPT. B. WESLEY OFFICIALLY IN
CHARGE OF VOLUNTEERS
OF AMERICA.

Capt. B. Wesley, who is in charge
of the Volunteers of America here,
has received his official commission
to the command of the work in Dixon
and vicinity. The Volunteers of Amer-
ica were organized 18 years ago un-
der the leadership of Gen. Ballington
and Maude Booth, son of Gen. Wm.
Booth, and during its existence thou-
sands of unfortunates have received
the assistance that their conditions
have required.

Rescue homes for women and girls,
free day nurseries for children and
industrial homes for men have been
established in all parts of the United
States and also in five foreign coun-
tries. Capt. Wesley will be glad to co-
operate with any persons as well as
churches in the interest of the unfor-
tunates of Dixon.

DR. MOORE WAS TAKEN SICK

Dr. A. F. Moore was taken sud-
denly ill, while working in his of-
fice early last evening. A physician
was called and his condition became
so alarming that he was removed to
the Dixon hospital. He was much
better this morning and left the hos-
pital this afternoon. He took a long
auto trip to Clinton yesterday after-
noon and this is believed to have
brought on the illness.

GASOLINE STOVE EXPLODED

A gasoline stove exploded at the
home of Mrs. William Moore, Chest-
nut avenue, at 12:20 o'clock this
noon, starting a blaze which neces-
sitated the efforts of the fire de-
partment. The woodwork in the kitchen
was burned and a rug in the sitting
room was slightly damaged.

QUARANTINE AGAINST CANADA

State of Washington Takes Action to
Prevent the Return of
Cattle Cars.

(Associated Press)

Washington, D. C., Nov. 9.—All
shipments of live stock from Canada
to the United States have been barred
by the state of Washington. The au-
thorities have taken the action to pre-
vent the return of cattle cars which
are infected with foot and mouth dis-
ease. No evidence of the disease has
appeared in Canada.

Delaware Quarantined.

The state of Delaware was quaran-
tined today by the Federal authori-
ties.

STOCK YARDS EMPTY.

Chicago, Nov. 9.—The work of dis-
infecting the Union stock yards will
be completed tomorrow and the Illi-
nois Live Stock Commission will be
asked to inspect the work with a view
of reopening the yards immediately.
For the first time in 49 years there is
not a living steer, cow, hog or sheep
in the enclosures today.

Respond to Treatment.

Seventy-five prize cattle which are
infected are quarantined in the isola-
tion hospital and are responding to
treatment.

Continues to Spread in Illinois.

Chicago, Nov. 9.—The foot and
mouth disease continues to spread in
Illinois. L. D. Canum, a wealthy farm-
er near Aleo, found the infection had
appeared among his cattle and hogs.
He killed ninety head of stock and 300
hogs, valued at \$10,000 to prevent the
disease from spreading. Five counties
—Cook, Kane, Kendall, Livingston and
Menard—are under quarantine and in-
spectors are working in Henry Mc-
Henry, Lake and Mercer counties,
where the disease has been found. It
is probable these will be quarantined.
A force of 100 men under the direc-
tion of State Inspector John Miller,
set to work to disinfect the yards at
Peoria, which were shut down at mid-

MRS. CYRUS WILLIAMS DIED IN BROOKFIELD

SISTER OF LATE JUDGE CRAB-
TREE PASSED AWAY IN MIS-
SOURI CITY.

Sunday afternoon Mrs. Ira W. Lew-
is received a telegram from Brook-
field, Mo., announcing the death Sat-
urday evening of Mrs. Cyrus Will-
iams of that city. Mrs. Williams' ma-
iden name was Lucy S. Crabtree and
she formerly lived in Dixon. She was
a sister of the late Judge John D.
Crabtree, an aunt of County Judge
Elect John B. Crabtree of this city,
and had many friends here in her girl-
hood. Her husband is a brother of
Mrs. Ira W. Lewis and the late Lem-
uel Mulkins. Mrs. Lewis and Miss Hat-
tie Mulkins will leave this evening
for Brookfield to attend the funeral.

William Crews In Bad Runaway In North Dixon

Was Thrown From Buggy And
Dragged Considerable
Distance Today

William E. Crews had a narrow es-
cape from serious injury early this
morning when his horse which he
was driving on North Galena Avenue
became frightened and ran away
throwing him out on the brick pave-
ment and dragging him for some
distance. Luckily he was uninjured
by the fall but the horse was badly
scratched and the buggy was almost
demolished.

Mr. Crews was driving south on
Galena avenue and his horse became
scared at a box in the street. The
animal gave a lunge, throwing itself
down and pulling Mr. Crews from the
buggy. It then regained its feet and
started down the street with Mr.
Crews hanging onto one line. After
he had been dragged for some dis-
tance his hold on the line was broken
and the horse dashed into a tree on
the corner of the H. G. Reynolds
lawn. There the buggy was badly
smashed and the horse tore itself
loose and ran west on Morgan street
and was later caught on West Fel-
lows street.

BY MAGISTRATE KENT.

Police Magistrate W. G. Kent this
morning placed on file a city ordi-
nance, which provided, briefly, that
all draymen, etc., should be required
by law to report every case of per-
sons or families moving their house-
hold goods into Dixon, out of Dixon,
or from one place to another in Dix-
on, to the proper authorities. Reports
are to be made the day of moving or
before. This ordinance is in effect
in many cities and it is said to be
very successful in coping with cer-
tain conditions.

ANTE-MORTEM STATEMENT OF MURDERED MAN

JURY IN BYERS MURDER TRIAL
EXCLUDED AS LAWYERS
ARGUE.

OVER ITS ADMISSIBILITY

Witnesses Say Slain Man Stated He
Knew He Was Going
To Die.

(Special to the Telegraph.)

Morrison, Nov. 9.—This afternoon
Judge Graves ruled that Emmanuel
Byers' dying statement was admis-
sible as evidence and accordingly the
jury was called in and Merle Byers
and his mother told their stories as
told to the judge.

Threats to Kill.

Mrs. Byers gave additional evi-
dence of a sensational character
when she testified that a number of
times during the past few years Mrs.
Emma Hutton had visited her house
and had threatened to kill Emman-
uel.

Morrison, Nov. 9.—The admis-
sibility as evidence of the dying state-
ment of Emmanuel Byers formed the bone
of contention between attorneys for
the state and the defense in the trial
of Mrs. Emma Hutton and Miss Lil-
lian Byers for his alleged murder,
and all morning and part of this af-
ternoon the question was argued be-
fore Judge Graves, the jury being ex-
cluded. Testimony was taken to show
that the statement was made by a
man who knew he was dying, that de-
tail being necessary under the pro-
visions of the statutes.

Saturday Afternoon.

Saturday afternoon Samuel Weeks-
ler completed his testimony concern-
ing the shooting, in which he said
each woman fired two shots, and the
attorneys for the defense were unable
to shake his story materially.

Following Weeksler, Merle Byers,
a son of the murdered man, who was
also working in the hay field at the
time of the shooting

the champion it is money tonight and
more tomorrow night if he wins.
Because of the Wisconsin law no
decision will be given, so if the con-
test goes the full thirty minutes,
England will still retain the 133-

a knockout. History has shown that
he has a jaw-breaking punch, but the
question is in his ability to put it
over. If he does he does he will
be signing "world's champion" after
his monicker by 11 o'clock tonight.

DIXON AND MORRISON BATTLE TO A TIE

NEITHER TEAM SCORED IN SAT-
URDAY'S GAME PLAYED IN
DIXON.

Both Organizations Played Some
Rattling Good Football During
the Contest.

The Dixon Union and Morrison
High school football teams battled
for an hour Saturday afternoon at
Athletic park and when the referee's
final whistle was blown neither goal
line had been crossed and the two
teams were surging back and forth
in the middle of the field.
The goal lines were threatened on
several occasions but it seemed that
the defenders were impregnable at
those times and the offensive team
either lost the ball on downs or on
a fumble. The Dixon team had the
ball within three yards of the Morri-
son goal in the third quarter but
two line plunges failed to gain the
required distance and they lost the
ball on downs. Morrison threatened
seriously earlier in the game but the
local boys took a brace and held.

Was Good Game.

The game was one of the best ever
witnessed at Athletic park. The
teams were evenly matched in weight
the advantage, if there was any, be-
ing with the Whiteside champions,
but what advantage they might have
had was lost in poor physical condi-
tion. They were out on account of
injuries several times and none of
them seemed to have the stamina to
go through a hard game.

The Dixon boys played stellar ball
throughout. The work of Ackert
featured the contest. Wold, Vaughn,
Lennox and Barge also played well.
The Morrison back field easily did
the stellar work for that team and
outclassed the local's backfield, but
the Morrison line was weak, and they
were not given much chance to dis-
tinguish themselves.

BOWLING SCHEDULE STARTS

The season of the City Bowling
league will be opened at the Brun-

three games will be rolled each night
until the schedule of games is com-
pleted.

WOMEN "SHIN IT" UP TREES

Society "Bull Fight" Ends With Fe-
minine Spectators in Panic.

Chicago, Nov. 9.—Half a hundred so-
city people journeyed to a pasture
near the fashionable Glen View Golf
Club grounds to witness a bull fight.
It was announced that the bull would
not be killed. In the course of the
combat the torador fell through the
wire fence enclosing the bull ring, se-
verely lacerating his gaudy trousers,
and the bull charged the grand stand.
When the excitement was over three
of the frightened women spectators
were found in a tree, where they had
hastily clambered. Later Miss Marian
Lo-min dashed into the arena riding
"bareback" on a broncho named
"Pickie," which bucked and threw her
off almost at the feet of the bull and
some more of the women spectators
began to climb trees.

SERVE CARRANZA WITH ULTIMATUM

Convention Gives Him Until 6
P. M. Tuesday to Quit.

ANTI-AMERICANISM IS STIRRED

Supreme Chief Seeks to Make More
of U. S. Occupation at Vera Cruz
for Popular Effect—Gen. Funston
Says There is No Cause for Any
Alarm.

Washington, Nov. 9.—Carranza has
until 6 o'clock Tuesday night to make
up his mind whether he will relinquish
the provisional presidency of Mexico
without a struggle or whether he will
fight for the retention of his present
office.

The news that the convention has
sent such an ultimatum to Carranza
has been received here officially. The
convention demands that before Tues-
day evening he announce his recogni-
tion of the sovereignty of the conven-
tion and how to it by vacating his of-
fice from which the convention has
already deposed him and named Gen-
eral Enalio Gutierrez in his place.

Though it had previously been ru-
mored that the convention was to
give a time limit to Carranza within
which he must get out of office or be
driven from it by force the day's dis-
patch was the first official report to
this effect. Meanwhile, officials here
are confident that by Wednesday a de-
cisive turn will have been given the
situation and there will be some
basis for estimating whether there is
to be war or peace in Mexico.

Carranza After Popular Sentiment.

Further indications that Carranza
is engaged in an attempt to stir up
popular sentiment in southern Mexico
in favor of himself in his contest with
the convention by agitating the issue
of Vera Cruz was made here. It be-
came known that while the inflama-
tory posters published and distributed
by Masons early in the week were
promptly suppressed they were re-
printed in all the newspapers a few
days later.

Nothing Alarming Says Funston.

General Funston cabled Secretary
Garrison in response to the latter's
inquiry that there seemed to be no
cause for alarm.

"Many unsubstantiated rumors have
prevailed for a long time," cabled Gen-
eral Funston. "I think it better to dis-
credit unsubstantiated reports. There
is nothing alarming in local conditions
in Vera Cruz."

DRY LAW GIVEN HARD BLOW

Court Rules Whisky Smugglers Must
Be Caught in Act.

Muskogee, Ok., Nov. 9.—A decision
of the United States Circuit Court of
Appeals at St. Paul, reversing the Ed
Chambliss case, if it is as sweeping
as indicated in a telegram received
here by J. C. Denton, will take away
all the government's power of prose-
cuting violators of the liquor laws in
Eastern Oklahoma.

The decision, as it is understood,
means that persons who bring whisky
into the Indian country must be
caught in the act of doing so, and bot-
tles of whisky bearing labels from
whisky houses outside the state will
not be taken as conclusive evidence
that the liquor contained therein was
"introduced" or brought into Indian
country.

As the so-called "bootleggers' trust"
consists of men who employ others
to bring whisky into Oklahoma, it
would be impossible to convict them
under the new decision.

THREE GOVERNORS TO SPEAK

Shields Statue to Be Unveiled at Car-
rollton, Mo., November 12.

Jefferson City, Mo., Nov. 9.—Three
governors from states he represented
at various times in his career will be
present Thursday, November 12, at
the unveiling of the statue of Gen.
James Shields in the City Cemetery
at Carrollton, Mo. There will be a
military display and numerous eul-
ogies, one of the latter by Attorney
General Baker.

The governors to be at Carrollton
and make speeches are Gov. Dunne
of Illinois and Eberhart of Minnesota.

Says Turks Threaten Mutiny.

Bucharest, via Rome, Nov. 9.—The
Turkish government has mined the
Bosphorus as a precautionary measure
with the object of defending Constans-
tinople against a threatened mutiny
of the blue jackets of the Turkish
navy who are exasperated by the ex-
tremely severe discipline enforced by
the German commanders of the war-
ships.

Russ Take Fortified Position.

London, Nov. 9.—A dispatch from
Petrograd says an official statement
was issued there saying that the for-
tified position of Kaprikol, on the
Caucasian frontier guarding the road
to Erezum, was captured by the Rus-
sians, who defeated the Turks after
a fierce battle.

STRAWBERRY CULTURE.

Beds Should Be Established as Soon
as a Home Is.

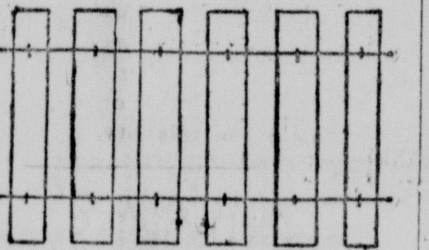

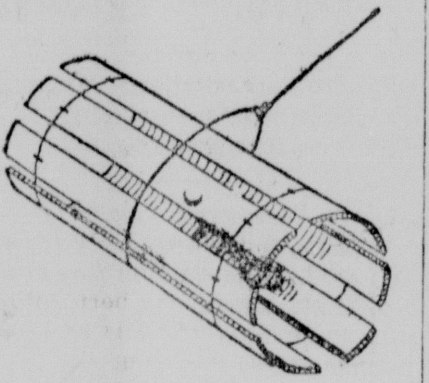

"Like asparagus, strawberry beds
should be established as soon as the
family has settled in a country home,"
says Kate V. Saint-Maur in Woman's
Home Companion, "because it takes a
year to get a full crop. There are a
great many varieties to choose from,
but I think it is best to restrict selec-
tion to the old established kinds. The
Marshall for first early, the Glen Mary
for mid-season and the Gandy for late
gathering. And truly I don't believe
there can be a better selection for the
home garden near New York.

"But, as some varieties do better
than others in a certain locality, it is
advisable to consult old residents in
the neighborhood and the nursery-
men.

"Light sandy soil, sloping slightly
to the south, will produce the earliest
berries, but we are convinced from
experience that slightly heavier soil
and a more northerly exposure pro-
duces a better fruit in mid-season. Our
beds all slope to the south, but the
late varieties are so situated that
they are slightly shaded by a row of
young pear-trees, which protects them
from the direct rays of the sun. The
soil is—or rather was—of ordinary
quality, neither very sandy nor very
heavy, so for several seasons we scat-
tered fine coalashes between the
rows of the early plants, which ma-
terially lightened the soil, and for
several years we have had berries
from five to ten days earlier than our
neighbors."

Saving a Broken Tree Limb.

This contrivance is made of a few
lengths of boards two inches wide,
fastened together with wire, as seen
in the picture. This is wrapped firmly
around the tree and wire attached, as

In cut. This allows for expansion in
growing trees. Fasten a similar
shield on the trunk higher up and run
a strong wire from trunk to limb.

Protect the Fruit Trees.

If your young trees were mulched
last fall and not properly protected
from mice and rabbits, you will prob-
ably be surprised when you visit the
orchard to find that many of them
have been ruined. Mulch is a good
thing for the tree, but it is also a
good thing for mice, as it affords them
the best protection during the winter
and they gather in large numbers
around the foot of the trees and eat
away the bark.

Protection is easy. The best ma-
terial is wire screening, although
some use tarred paper and veneer
from wood. Some orchardists prac-
tice tramping snow around the base
of their trees, but oftentimes this is
neglected and the trees are injured
before the work is accomplished. The
protectors should be pressed into the
ground deep enough to prevent the
mice from crawling under. Person-
ally I prefer wire-screening, but
in case tarred paper is used it should
be promptly removed in the spring to
prevent injury from scalding.

How to Grow Water-Cress.

Those fond of water-cress may have
a summer's supply by sinking an old
tub or bottom of a hoghead to a
depth of ten inches near a pump or
well or where the water can be fre-
quently renewed from hose. Half fill
receptacle with good soil, plant rooted
water-cress and fill with water. A
border of umbrella plants or other
aquatic plants will make it a thing of
beauty as well as of utility. A further
improvement may be made by plant-
ing iris around outside of the tub,
the overflow of water giving the nec-
essary moisture to the flowers.

Keeping Potatoes.

Many market gardeners find it pro-
fitable to include potatoes in their
list of crops, and it is important to
keep the seed tubers in a perfectly
dormant condition. Cellars with fur-
naces are unsuitable for storing seed
potatoes. The room should be cool,
dry, well ventilated and frostproof.

General Farm Notes.

Good bedding is of value because
it saves the liquid manure.
The best crop to redeem a run
down field is alfalfa.
The old fashioned winter is going
to give us some old fashioned roads
next spring.

BOMBARD ASIA MINOR POINTS

British Squadron Keeps Up Activity
in Mediterranean Waters.

Athens, Nov. 9.—The British squad-
ron has bombarded various points
along the coast of Asia Minor. The
Turkish troops were concealed behind
breastworks on the coast. The tele-
graphic station near Smyrna has been
destroyed.

A British battleship has gone to
Avail, Asia Minor, to seek the British
consul and other British subjects. The
forts at Fethi, Bahr and Koumalak
have been seriously damaged by the
recent bombardment by warships.

Dies From Auto Injuries.

Chicago, Nov. 9.—Hans J. Rasmus-
sen, president of the Badger Foundry
company at Racine, Wis., is dead as a
result of injuries sustained several
days ago in an automobile accident.

567 Women Vote at Town Election.
Sparta, Ill., Nov. 9.—One of the most
vigorous contested elections in Sparta
was held on the proposition to vote
waterworks bonds, 567 women voting.
The result is as follows: For bonds
to the amount of \$22,000, 1,052; against
198. For appropriation of \$22,000 to
be made by the city, 1,081; against,
202.

CHILDREN HATE OIL CALOMEL AND PILLS

"CALIFORNIA SYRUP OF FIGS" IS
BEST FOR TENDER STOMACH,
LIVER AND BOWELS.

Look back at your childhood days.
Remember the "dose" mother insist-
ed on—castor oil, calomel, cathar-
tics. How you hated them, how you
fought against taking them.

With our children it's different.
Mothers who cling to the old form of
physic simply don't realize what they
do. The children's revolt is well-
founded. Their tender little "in-
sides" are injured by them.

If your child's stomach, liver and
bowels need cleansing, give only de-
licious "California Syrup of Figs."
Its action is positive but gentle. Mil-
lions of mothers keep this harmless
"fruit laxative" handy; they know
children love to take it; that it never
fails to clean the liver and bowels
and sweeten the stomach and that a
teaspoonful given today saves a sick
child tomorrow.

Ask your druggist for a 50-cent
bottle of "California Syrup of Figs,"
which has full directions for babies,
children of all ages and for grown-
ups plainly on each bottle. Beware
of counterfeiters' sold here. See that it
is made by "California Fig Syrup
Company." Refuse any other kind
with contempt.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Easily and Cheaply Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Pour the 2½ ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of 82. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with this. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes. Avoid disappointment by asking your druggist for "2½ ounces of Pinex" and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

PIONEER PASSED AWAY IN THE WEST

AMOS F. MOORE DIED IN WASHINGTON ON SUNDAY MORNING.

WAS PROMINENT LOCALLY

Unloaded First Rail for Chicago and Galena Railroad—Lived at Polo.

Amos F. Moore, for many years one of the most prominent residents of Ogle county, died at the home of his daughter, Mrs. Gruber, at College Place, Washington, Sunday morning at 11 o'clock. The body will be brought to Polo, his home for many years, and interment will be made there. Funeral services will be held at the Lutheran church. Rev. F. M. Keller will officiate and the remains will be interred at Fairmount cemetery.

Was Pioneer.

Amos Foster Moore was born at Ackworth, New Hampshire, on March 11, 1831. He came west to Chicago by lake boat in 1848 and unloaded the first rail for the old Chicago & Galena Union railroad company, now a part of the Northwestern system. He went to Buffalo Grove, now Polo, in 1853 and settled on a farm about four miles southeast of there. He resided on this farm until his retirement from active work about sixteen years ago. He moved to Polo at that time and lived there until two years ago when he went to Washington and has since resided with his daughter.

Farmers' Institute.

He was one of the organizers of the Illinois State Farmers' Institute and was for many years a member of the board of directors and president of that organization. He was one of the leading farmers of Northern Illinois, and was recognized as an authority on questions connected with it.

He was one of the organizers of Marcia Cutts at Buffalo Grove and to this union was born seven children, one of whom is now deceased. He leaves surviving him, his wife, and six children, Mrs. Arthur Gruber of College Place, Washington; Albert of Walla Walla, Wash.; Fred L., of Portland, Ore.; Dr. George H., of Alledo, Ill.; Frank of Polo; and Dr. Amos F., of this city.

ED SMITH BUYS BROTHER'S INTEREST

BELLE CLAIRE RESTAURANT IN THE SOLE POSSESSION OF EDWIN SMITH.

George Smith sold his half interest in the Belle Claire cafe to his brother Edwin Smith, Saturday and transferred the sole possession at that time. The young men entered the business about three years ago and have built up a large business. George Smith's plans for the future are undecided, but he will remain in the restaurant for a short time.

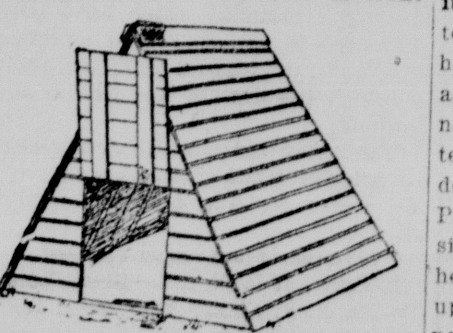

Married Announced.

Dixon friends have received announcements of the marriage of Mrs. Helen Parks and Mr. George R. Kincaid of Spokane, Washington. The wedding took place on November 4. Mrs. Kincaid will be remembered as Miss Helen Puterbaugh of this city.

PORTABLE HOUSE FOR HOGS.

is 2 1/2 feet wide, three feet high, and another at the back, near the top is 12 by 18 inches. The small door may be covered with heavy muslin, admitting air and light without draught. The frame is made of 2 by 4's and is covered with drop siding. No floor is used. When it is desired to move the building, it may be tipped over onto a low wagon or stone boat. This is the house we recommend for beginners, says a bulletin issued by the Colorado agricultural experiment station. It is cheap, and often old material can be used in building it. It is easily moved and easily disinfected, and can be changed so frequently that it may be kept on clean ground, free from disease. When a sow farrows in cold weather, a lantern hung to the roof will keep the building sufficiently warm.

ANTE-MORTEM STATEMENT BY MURDERED MAN

Continued from Page 1.

morning Merist was again called to the stand and asked concerning his father's last statement. Attorneys for the defense immediately objected on the ground that the man did not know of his condition at the time he made his statement.

"Be Good to Mother."

The little son of the slain man then related his story of the last statement made by his father. He said his father had said that he knew he was not going to get well, and had told him to see that his mother sold the farm and paid off the mortgage, and asking him to be good to his mother. He said his father told him that Emma had shot him twice and then Lillian had also shot him two times.

"I'm Going to Die."

Mrs. Mabel Byers, the widow, was next called, and despite the contention of the defense that she had no right to testify, Judge Graves ordered her to proceed. She said that when she reached her husband's side after the shooting he said, "Hello Mabel; I'm going to die, and I don't want to be taken to the hospital. I want to be taken home to die." She testified that her husband, as he lay on the ground, told her that each of the sisters had shot him twice, and he also admonished her to sell the farm and pay off the mortgage on it.

Rev. Wm. Miller.

Rev. Wm. Miller, who was also with the dying man in the hay field, testified that he had heard Emmanuel Byers say several times, as he lay there, that he knew he was going to die.

At noon the evidence concerning the dying statement of the murdered man had not been completed. Several witnesses remained to be called this afternoon, following which Judge Graves will render his decision whether or not to admit the statement as evidence. Should he find that the statement is admissible, the same testimony will be taken before the jury.

DISMISS SUIT AGAINST U. S.

WOMEN SHOULD TAKE WARNING.

If the statement made at a New York Assembly of women, that healthy American women are so rare that they are almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging down pains, nervousness, mental depression, that are tell-tale symptoms of some organic derangement for which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific and may be relied upon to restore women to a healthy normal condition.

TURKISH FORCES MENACE TRIPOLI

barded Kohlu and Suglu on the coast of Asia Minor.

Rome, Nov. 9.—Italy is sending troops of Tripoli to defend her settlements and loyal tribesmen against Arab rebels and Bedouins who have raided supply columns in the interior and have attacked an encampment of sulimissive tribesmen at Derna.

Turkey has disregarded the promise to Italy by Germany that the Porte would not threaten Italian colonies and that Turkey had no designs on Tripoli. Events are tending more and more to force Italy into the war on the side of the allies. The newest, most momentous crisis, has developed in Cyrenaica, due to the aggressions of Bedouins stirred by the preachers of Turkish and German agents.

News received here indicates Turkey's indication to drive the Italians out of Tripoli and to regain the provinces lost in the war between Italy and Turkey. For a week Bedouins in the interior have waylaid small detachments of troops and have fired upon and wounded Italian soldiers. Bedouins appeared in force at Derna, on the eastern extremity of the Cyrenaica promontory and made a savage effort to destroy the encampment there. The desert marauders were driven off by Italian infantrymen.

Italy to Demand Explanation. It seems probable that Italy, within the next day or so, will demand an explanation from Turkey and possibly from Germany, since Germany has assumed to guarantee the safety of Tripoli.

Governor General Eoglio has sent from Cyrenaica an urgent demand

A MECHANIC'S STORY.

A striking example of the situation in one of the important districts of the country is found in the story of a young skilled mechanic that he told in republican headquarters in this city a day or two ago.

The man had been a democrat, but he had had his lesson. He said: "I came in to learn certain points, so that I may inform my fellows, too. My experience is this: Under former policies where our business had some degree of protection, I earned from \$6 to \$13 a day in the steel mills as an expert in the handling of steel. I was paid by my product and so that made the variation in the day's run and the day's pay.

"Now I am holding an inferior job at \$1.50 a day and might be glad to get that, while thousands of my fellow workers had to be laid off entirely for lack of orders in the business with which I was connected.

"I would not speak of this," said the mechanic, "save that it is the general experience of American workmen everywhere. Millions are either out of work or on very short time and the degree of suffering that follows in all industries is something appalling to think of, while the only remedy for it, as the expert mechanic pointed out, is a return to the policies of protection that give American workmen a chance to earn a good living."

There is going to be greater need than ever as soon as the war is over for there is certain, as all agree, to be an enormous exodus from Europe toward America when it is possible for working men to get away.—Buffalo News.

"THE BOYS."

The Moose leaders in Lee county declared in their pre-election indiscretions that the management of the republican party in Lee county had been foisted upon the inexperienced shoulders of a couple of "boys" because the wise old republican bosses saw ignominious defeat staring them in the face and rather than be connected with the disaster that would devastate the republican party on November third when the entire progressive ticket was to be swept into office by the unanimous vote of the "four thousand progressive voters" they claimed inhabited the county, the "boys" were selected to be the goats. The Moosers greatly regretted the cruel and unprincipled action of the republican "bosses" in sacrificing the "boys" in order to save their own reputations, but observed that the two "boys" would know something about the intricacies of political methods before the campaign was over.

"The two boys" do not claim any credit for the victory of the republican party in Lee county. The ticket was elected upon its merits, and possibly was helped some by the "intricate methods" of the opposition, but did not those Moose leaders in Lee county sort of lay themselves open to a little friendly roasting when they allowed themselves to be snowed under by a party organization in the inexperienced hands of a couple of "innocent kids?"

THE COMMISSION FORM.

The city of Freeport is thinking about adopting the commission form of government. We can say to Freeport that it works like a top in Dixon. Dixon will never go back to the old order of things.

A SENSIBLE IDEA

The Freeport Journal-Standard, a newspaper that has been strongly progressive for the past two years, says: "It looks as though the Progressives and Republicans have united. A sensible idea."

Progressives in congress will find themselves in a most unique and distinguished position. Their strength will lie in brilliancy of intellect rather than numbers. As a party, they will have about as much influence as Jack Johnson. Even in combination with some of the minor party representatives, they could not muster more than a baker's dozen of votes. Their influence in shaping the policies of congress will be conspicuous by its absence.

Boise Penrose, a most notorious stand-patter, came back with a thud down in Pennsylvania. He won by some two hundred thousand, while Pinchot, his progressive opponent, was a poor third. The whole republican ticket was evidently good enough for the vast majority of voters there.

The big republican majority in New York state is an awful reproof to Colonel Roosevelt. That his own state should go against him is an indication of the way the people feel who know him best. The colonel is a great man, but there is always a limit to a man's greatness. Also his self confidence.

The combined vote of Sherman and Robins in Illinois, so far as reported, is 557,199, as compared with 356,237 for Sullivan, or an anti-democratic majority of over 200,000. It will be still larger when the full returns are in. Get together, Mr. Progressive and Mr. Republican.

It never pays to rub it in on the fellow who was defeated. He has got troubles enough to contend with, including the settling of his election bills, which always much resemble the paying for a dead horse.

Mr. Roosevelt must be thinking that the American public does not give a whoop for his advice.

The Chicago Tribune suggests that "Mr. Sullivan, like Bunn, the Baker of Baraboo, return to his biscuits."

In spite of the frantic efforts of most of the Chicago papers to elect Raymond Robins, that gentleman ran a poor third.

It took a republican landslide to crowd the war news off the front page.

LAMENTATIONS.

The melancholy days have come, the saddest of the year; our bank accounts are out of plumb, and all we buy is dear. I take downtown my large green roll, that would a heifer choke, but when I've bought my winter's coal, I find that I am broke. I seek my uncle's squalid den, where my greatcoat's in brine; alas, when I come out again, an empty purse is mine. In tears that from my eyelids leak, my whiskers are awash; it takes the wages of a week, to buy a Hubbard squash. When to the butcher's shop I slope, for nice lean pork to fry, I always need a microscope to find the meat I buy. I draw good wages for a dub, but, by my halldome, when I have bought my daily grub I haven't carfare home. In summer man himself can garb in cheap and flimsy clothes, and he can eat the juicy yarb that in his garden grows; and he has small desire for meat, he lives on corn and grass, and he has no expense for heat, for kerosene or gas. But Autumn's nipping, eager air increases all his bills, and he has grief till in despair he kicks and breaks the thills. The melancholy days have come, the saddest of the year, when all the prices skyward hum and things are doubly dear.

CATERPILLAR SIEGE GUNS.

In the feverish march of progress any have to speak of. That is the nowadays, no one can tell what will happen when a brand new war breaks out and begins to make messy marks on an otherwise perfectly good map.

There was much speculation a year ago as to what war would do to Europe. It was unanimously agreed that when the Zeppelins, the aeroplanes and the submarines had gotten through with their appointed tasks there would be no war left for want of belligerents. It was felt that as soon as an airship had unloaded a few cargoes upon the shuddering vitals of Europe that country would give a few convulsive twitches and succumb.

The war has now been raging with great fury for three months and, as usual, the prophets are trying to remove their prophecies from the records. The airships have fizzled and the aeroplanes have not murdered any armies to speak of. The navies are so carefully wrapped up in tar paper and other preservatives that the submarines cannot get at them and only one new invention has created the

catapult gun in times of peace and tried it upon the forts at Liege. There are no forts there now. There is a great deal of dread over this new perambulating cannon throughout Europe and it is felt that until some effective method of eradicating caterpillars is devised that Germany is going to cause unlimited woe to the enemy.

But who would have thought a year ago that the lowly caterpillar would prove so much more valuable than the roaring birdman!

mouth disease which is one of the most contagious and destructive diseases of cattle, swine and sheep, exceeds in area affected any of the five previous outbreaks in this country. Unless the infection can be immediately localized and quickly eradicated, it threatens untold losses among live stock.

"So contagious is the disease that in the past outbreaks where but one animal in a herd was infected, the entire herd in almost all cases later contracted the sickness. While the mortality is not high the effects of the disease even on animals that recover are such as to make them practically useless. In the case of cows the milk dries up and is made dangerous for human consumption.

"As a result of the five outbreaks in this country and other disastrous epidemics of the disease in Europe and Great Britain, veterinary authorities of the United States are agreed that the only method of combating the disease is to stop all movement of stock and material which have been subjected to any danger of infection and to kill off without delay all herds in which the disease has gained any foothold.

"For these reasons the department of agriculture has already quarantined ten states for the foot and mouth disease."

Shredder Movements Stopped. LaPorte, Ind., Nov. 9.—State Veterinarian A. F. Nelson has issued regulation No. 4 in regard to the foot and mouth disease among cattle, which has spread so rapidly in the last few days that it affects five Indiana counties and fourteen states of the Union. The new regulation is as follows:

"The movement from one farm to another of any corn shredder, traction engine or hay baler for the purpose of shredding fodder, baling hay or straw is prohibited, as this is, at the present time, a menace in spreading the foot and mouth disease. Permits will be issued for movements of hay, straw, fodder, live stock or poultry under conditions that will guard against spread of infection.

"Milk may be accepted for shipment outside the quarantined area, provided it is pasteurized or the milk is for immediate consumption; where it is received by creameries, no skim milk to be returned to farm unless pasteurized; provided this shall not conflict with any state, city or county

FAMILY THEATRE.

The bill at the Family theatre this evening will be pictures only, of which the management has selected the following four special reels: "The Black Signal," "The Family Record," "The Substitute for Paint," a comedy and Mary Fuller in "The Last Assignment." This program has been selected with especial care and is one that will appeal to all picture fans.

On Tuesday for matinee and night the management has secured a return engagement of Hal Caine's masterpiece, "The Christian," in eight reels. The demand for this wonderful picture has been so great that Mrs. Plein was compelled to secure a return date.

PRINCESS THEATRE.

Tonight the Princess shows two features, "The Power of the Angels," a two reel Domino with Chas. Ray, Enid Markey and Barney Sherry in the leading roles, a thrilling story of Old Mexico in which the story of the Angelus plays an important role, the stage setting and costumes harmonizing with the story in every detail, and "A Blotted Page," a Romance drama with W. E. Lawrence and Francesca Billington in leading roles. This is a strong drama of unusual human appeal.

AT THE OPERA HOUSE.

On tonight's program is the 11th installment of the "Trey O' Hearts," one of the most exciting two reels yet shown in this great serial picture, every installment is a story in itself. The scene is laid in the west and is rife with beautiful western scenery and thrilling action. The Miracle is another of those wonderful western Belair dramas, the director and photographer with the Belair Co. are undoubtedly the best in the business and this picture is one of their master pieces. Concluding the bill is The Close Call, under the directorship of Fred Sterling, who can do more with child actors than any director in the business. If the general public would only stop to think what an undertaking it is to get children to act without being conscious or looking at the camera they would appreciate these films to the fullest extent.

The Majestic Stock Co. of Rockford played to a capacity house at the opera house last evening, in fact turned away many. Everyone was very much pleased with their portrayal of the "Divorce Question." Chester Bishop played the role of Rev. Wm. Jerome in a most satisfactory manner. Miss Nina Howell made a most excellent Mamie and won the hearts of the audience from her first appearance on the stage; H. Walter van Dyke as Dope, made a decided impression and G. K. Brown as Patrick Kelly, was greeted with rounds of ap-

plause and hearty laughter. In fact there was not a flaw in the entire cast. Manager Simpson is to be congratulated on procuring such a capable company of players for his Sunday week. Open afternoons and evenings patronage in Dixon, as they are equal at People's Church.

BEGINS SERIES OF SCIENTIFIC LECTURES

(Continued from page 1)

You cannot live in the plan of your house; the house must be a reality. There is truth enough in the world to make men free, but it is not incarnate truth that reaches from the tops of the houses to heaven, but often fails to reach the pavement.

In illustrating his point, the doctor gave examples. He referred to Andrew Grant of Dawson City, as a man of conviction, and told how he won out, single handed, against a popular demand that a prize fight should be allowed and on circumstance as a basis made a strong appeal for rock ribbed honesty and unswerving conviction in meeting some of the issues of the day. He said that when once the conscience of the Christian people is thoroughly aroused and set against the social evils of the day, they will disappear. The voice of God is the voice of the people, only when God is among the people.

AT Y. M. C. A.

At the Y. M. C. A. Sunday afternoon Dr. John lectured to men on "Backbone and How to Keep It." He said in part:

A man's back bone gives rigidity, strength and elasticity to his body. The soul as well as the body, has a backbone. The backbone of the soul is the will. The question, then, is how to get a vigorous will and how to keep it after you get it.

The first way to strengthen the will for any purpose is to use it. Use is the law of development, whether physically, intellectually or spiritually. How does the sailor acquire his remarkable power of vision? Simply by using his eyes. How does the blind man get his delicate power of touch? By using his fingers.

So the soul acquires power of will by willing. Use what will power you have, and you will gain more power by the act. You do not strengthen your will by using your memory or reason, but by using your will. You do not increase your power of sight by exercising your ear, but by exercising your eye. Increase of will power comes only from the exercise of your will.

The will may be strengthened for any purpose by being previously committed for that purpose.

Must Know Course.

The captain who would sail his ship to a given port must set his prow toward that port. He must know his course before he starts on the voyage, and keep his ship to her course. When the storm comes, or the sun hides its face the captain may be in doubt, if he simply guides his ship by each day's impulse and sooner or later he will drive upon the rocks. But he must set his vessel to her course and keep her to it, whether in calm or storm.

And the man who says "I will not pledge myself to any line of conduct or set my soul in advance against any sort of temptation, but will decide my course when I meet temptation" will find himself helpless in an unexpected crisis. It is the man who decides in his clear moments what his course will be when the unexpected comes upon him, that will meet the crisis when it comes.

The will is strengthened for any purpose not only by being committed to that purpose, but by being publicly committed to it. The man who resolves to lead a righteous life will be more likely to succeed if he publicly announces his resolution by uniting with the church of Jesus Christ.

One may strengthen his will to the utmost and yet fail in the hour of temptation. He may publicly declare his intention of leading a pure life and become a member of some branch of Christ's church, and still be unequal to the great crisis of life.

There is one way and only one way by which the will may be over whelmingly strengthened for a good purpose, however sudden and extreme, the temptation and that is by being linked with the will of Christ. Human means are efficient, but God alone is sufficient. The will of God is omnipotent for righteousness.

DIXON COUNCIL U. C. T. INSTITUTED

NEW ORGANIZATION COMPLETED AT MILLER'S HALL SATURDAY EVENING.

BANQUET FOLLOWS MEETING

Members Were Guests of M. E. Rice of the Nachusa Tavern Afterwards.

Dixon Council No. 558, United Commercial Travelers of America, was regularly instituted Saturday evening at Miller's hall by Grand Juror Counselor W. J. Sullivan and Grand Secretary C. A. Woolley, assisted by F. C. Williams, Gerald Taylor, T. W. Davis and J. A. Munson, who have been officers in various councils throughout the state. The following members of Northwestern Council No. 72 of Chicago also took part in the installation:

L. T. Rountree, Senior Counselor Harold Sanders, Conductor H. E. Redell, Page George Soultman, Harry Young and T. C. Underwood.

The officers of Dixon Council are: A. E. Taylor, Past Counselor L. J. Bertoll, Senior Counselor James Deveney, Junior Counselor J. H. Dunovan, Sec. and Treas. F. G. Wohnke, Conductor T. E. Beck, Page G. H. Rikert, Sentinel W. G. Kapp, Chaplain.

Executive Committee: Phil Kerz, Edward Seyfarth, S. M. Hazdrigg and Charles Klesinger.

Twenty-One Members.

At the meeting Saturday evening twenty-one candidates were accepted and thirteen members of other councils signified their intention of being transferred to the Dixon Council thus giving the Dixon order a much better start than is enjoyed by many of the subordinate organizations.

Enjoyed Banquet.

Following the business meeting, which was conducted in regular form and in which the officers received work in the various departments, the travelers adjourned to the Nachusa Tavern where they were guests at a complimentary banquet tendered to them by Landlord Rice.

COUNCIL TRANSACTS MINOR BUSINESS

MEETING OF COMMISSIONERS IS DEVOID OF INTEREST THIS MORNING.

The city council met in regular session this morning and transacted business of minor importance. A petition to erect an electric sign in front of James Clemon's candy shop at 187 Galena avenue was referred to Commissioner Van Bibber, of the department of public health and safety, with power to act.

H. T. Markus, for his mother, Olive A. Marcus, petitioned the council regarding recompense for ground owned by Mrs. Marcus at the corner of West Fourth Street and Van Buren avenue, which is said to be part of an alley put through by the city. Mrs. Marcus' lot is 50 feet wide and runs to the center of the alley. The matter was referred to City Attorney Mark Keller for investigation.

Local Board Met.

The board of local improvements met after the council meeting this morning and accepted the final estimate on ordinance No. 138, providing for macadam on N. Ottawa avenue and East McKinney street. The figures are \$9,722.88.

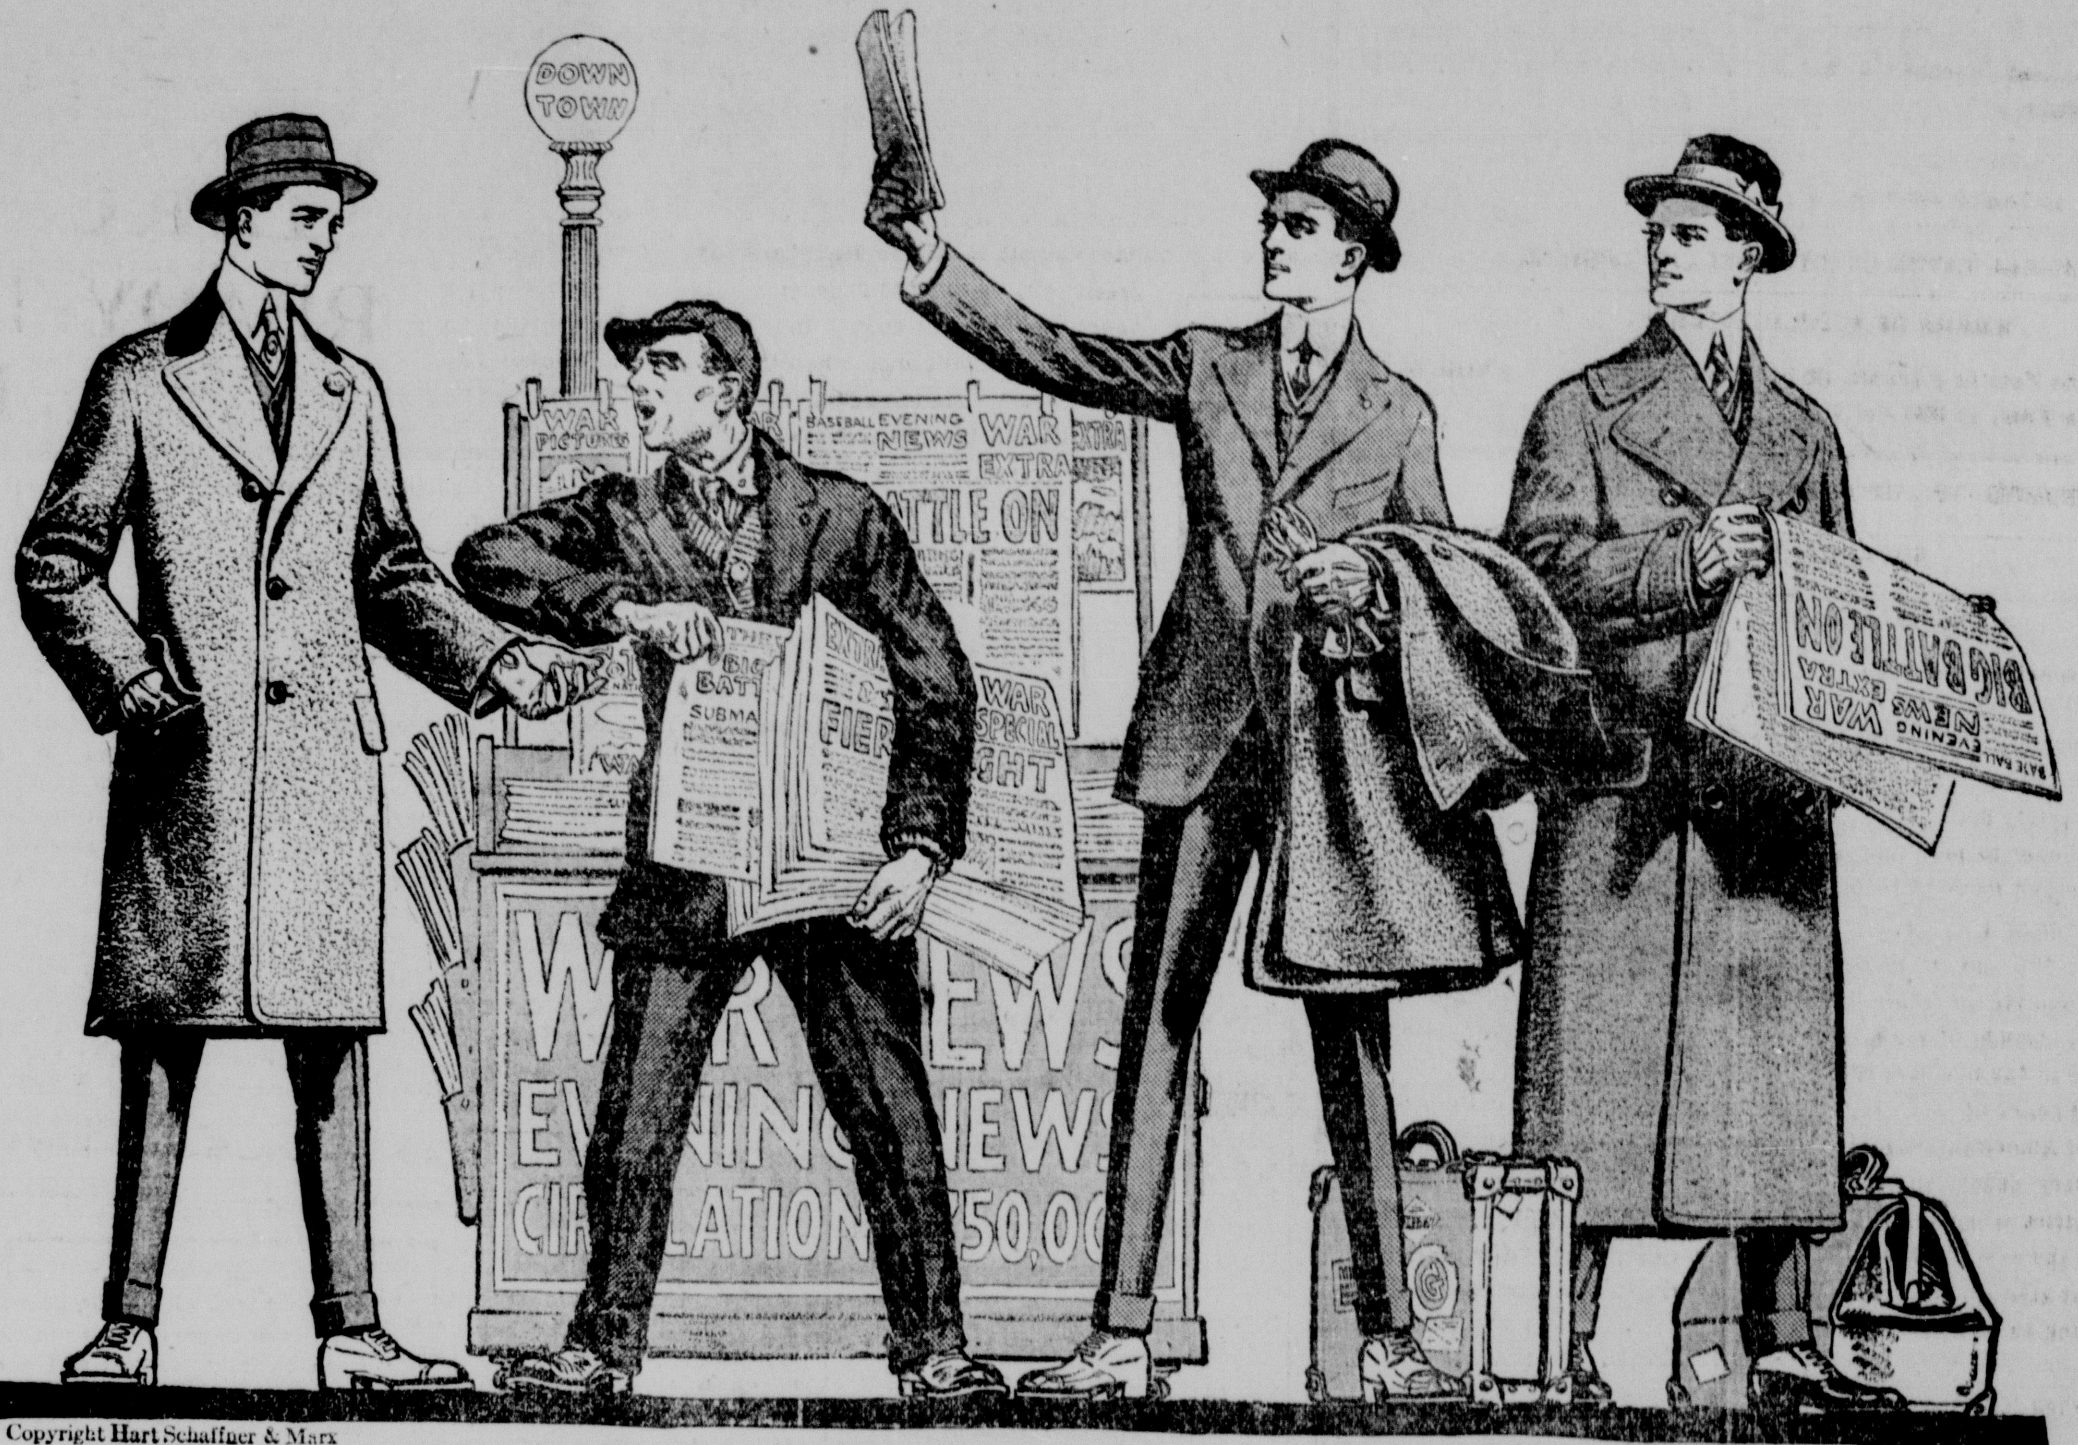

Vouchers were issued to Alexander Clubb for \$6,000 for paving on College avenue, and for \$3,000 to Clubb and Hughes for moving tracks and planking on River street.

The Trey O' Hearts

The hour that followed lived ever in his memory as an hour in hell. No ray of hope lightened its impenetrable blackness. He could say nothing to comfort the girl; bravely though she strove to keep up her heart, time and again she shook in his arms like a mad thing, when panic dread caught her by the neck as a terrier catches a rat. To die there, in the darkness, like so many noxious animals trapped in a well!

The water mounted rapidly. Within five minutes it drove them back to the elbow in the tunnel; within ten it lapped their ankles as they lingered there, doubting which was the greater peril, to advance or to stand fast and let the flooding tide snuff out the fires of life. To return to the neighborhood of the bulkhead was to court the death indicated by the fuse and the keg of blasting powder.

Of a sudden the thought crossed Alan's mind that Marrophat had arranged the latter solely to keep them away from the bulkhead. Now that he thought of it, he felt certain that the powder room had been deliberately disclosed to him by Jimmy.

Probably, then, the keg and fuses were but stage properties—or possibly.

Whether or no, was death in one form preferable to the other?

He was decidedly of the opinion that it were better to be extinguished once and for all time, in the space of a second, annihilated by an explosion, than to die thus lingeringly.

On this consideration, he drew Rose with him back to the bulkhead.

When they had been some fifteen minutes beside the bulkhead, the water mounted the head of a slight rise perhaps ten feet behind them, and poured down in ever deeper volume to back up against the barrier.

It was waist deep, however, before they retreated to the head of that rise.

Half an hour later it was waist deep there, on the highest spot in the tunnel.

In fifteen minutes more it had reached their chins. And they stood with head against the roof of the tunnel.

Holding Rose close to him, Alan kissed her lips, that were as cold as death.

Then, fumbling under water, he found the hand of the man at his side. The water lapped his lips like a blind hand.

In the tunnel that branched off from the main shaft, beyond the bulkhead, some thirty minutes before this juncture, a candle had guttered in its stick.

Alan Negotiates for the Burros.

left carelessly thrust into the wall by Marrophat's lieutenant, and guttering, had dropped a flaming wick into a little heap of bonedry debris. This last flamed, licked hungrily at the timbering that upheld the falls of the tunnel. The timbering caught fire without delay. In a space of time incredibly brief the flames were spreading right and left, the tunnel was a vault of blistering fury.

As Alan said his last mute farewell to Rose and Barcus, the fire spread out in the bottom of the shaft and invaded the powder room.

Alan had guessed aright at Marrophat's design; the keg of blasting powder was less than an eighth full; its explosion could not possibly have effected the cavern Alan had at first feared.

But what Marrophat had overlooked was the proximity to the keg of some several sticks of dynamite, masked by a film of earth that had fallen from the crumbling walls.

When the blazing fuse dropped sparks into the blasting powder this last exploded right willingly and the dynamite took its cue without the least delay.

The resultant detonation was terrific. The bulkhead was crushed in like an eggshell barrier. Part of the walls fell in, but the tunnels and shaft remained intact. The released flood streamed out and spread swiftly to the farthest recesses of the burning tunnel. Dense clouds of steam filled that place of terror as the fires were extinguished.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Your Hair Gets Soft, Silky and Luxuriant At Once.

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scourer robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flannel, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

INTERESTING SIDE LIGHTS ON WAR

Venice, Oct. 28.—(Correspondence of the Associated Press).—Through the efforts of the Red Cross society, some twenty thousand letters and post cards from Austro-Hungarian war prisoners in Russia and Serbia, have already been delivered to their relatives and friends at home. The correspondence from both countries comes through Roumania. The letters of course, are read by the official censors in the country where they are written. The Austrian papers admit that the correspondence in the whole gives the impression that the prisoners are being well treated. In Russia the wounded receive medical attention, and a grand duke visited them in a hospital at Moscow. Nearly all the unwounded and those who have recovered from their injuries are sent to Omsk in Siberia. It is thought that later they may be put to work in the mines there, but nothing definite has been heard as to this.

For the especial benefit of the middle class of unemployed in Vienna, the Austrian Women's Franchise Committee have organized Citizens' War Dinners. A substantial meal of two courses, nicely prepared and served, is supplied for forty hellers (eight cents). Dining rooms have been provided at various centers where the meal is served between noon and half past one o'clock daily, or the food can be taken home if desired, but persons must bring their own dishes for the purpose. Among the classes benefited this form of relief are musicians, artists, engineers, teachers, commercial clerks and shop assistants of both sexes.

American smokers will soon have to be content with home grown tobacco, since imports from abroad have been entirely stopped and the stock of foreign brands on hand in the government stores are not very large.

The director of the Austrian Tabakregie is credited with saying that the public have been showing their

loyalty by rejecting all tobaccos, cigars and cigarettes manufactured in England or France. Both there and in Budapest the tailors' associations met and solemnly pledged themselves not to make up any English cloth whatever.

Several weeks later than usual the Vienna theatres have begun to open their doors, and most of them are now giving more or less regular performances. But the two court stages—the Imperial Opera House and the Hofburg theatre—are still closed due to disputes over salaries of the performers. Fearing that the season might not be very successful and presumably anxious to spare the Emperor's private purse from any great losses, the Court Chamberlain's department tried to reduce the scale of salaries paid to the better class of performers. It was proposed to fix the maximum remuneration of the chief actors and singers at eighteen thousand crowns (\$3,600) and the minimum at seven thousand two hundred crowns (\$1,440). No attempt was made to reduce the wages paid to the chorus girls and supers, and stage mechanics and other employees.

The court officials argued that their proposal was quite fair, as it was only intended to give four performances a week. But two or three of the highly paid artists offered such determined opposition to accepting any reduction in their salaries that it was impossible to re-open either opera or theatre. The quarrel at last became extremely acrimonious, and names of the singers who were standing out for the regular high salaries were freely mentioned in the papers. At last it was stated that they had yielded to the representations of the minister of the interior, who were threatened with starvation and agreed to accept the lower scale of remuneration. But so far neither opera nor Burg theatre has been re-opened.

IF CONSTIPATED OR BILIOUS "CASCARETS"

TONIGHT! CLEAN YOUR BOWELS AND STOP HEADACHE, COLDS, SOUR STOMACH.

Get a 10-cent box.

Take a Cascaret tonight to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad breath, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermented food, and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

The Difference.

Sydney Rosenfeld once wrote a comedy entitled *The Optimist*, which achieved success after the production, but was a long time reaching the stage. Manager after manager refused the manuscript, and one day Mr. Rosenfeld, whose patience was exhausted, blurted out to his sole auditor:

"Of course you don't appreciate the play! You don't even know the meaning of its name."

"Yes, I do," protested the impatient.

"Well," insisted Mr. Rosenfeld, "what's the difference between an optimist and a pessimist?"

"The manager barely hesitated."

"An optimist is an eye doctor," he said; "a pessimist is a foot doctor."

Power of the Kitchen.

Much, maybe most, of the misery we see among the wage-winning folk is due to want of home comfort and cheerfulness. Nothing could help this out better than the careful instruction of girls in cooking, marketing, housekeeping and domestic economy generally. If all hard-working people had good food in plenty at prices well within their means, the family would already be half saved from the doctor, the saloon and the domestic relations court, even if the lady of the house was a bit short on geology, astronomy and piano playing.

Electricity now does practically all the work in the kitchen of the United States Military academy at West Point, N. Y.

BAD COLD? HEADACHY AND NOSE STUFFED

"PAPE'S COLD COMPOUND" ENDS COLDS AND GRIPPE IN A FEW HOURS.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged up nostrils and the air passages of the head; stops nasty discharges or nose running; relieves the headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice and causes no inconvenience. Accept no substitute.

BOATING JOY RIDES CAUSE CLERK'S FALL

Former La Salle, Ill. Bank Employee Is Indicted.

Chicago, Nov. 9.—The federal grand jury returned an indictment against Edward L. Zacher, a former clerk in the La Salle National bank of La Salle, Ill. He is charged with embezzling \$1,000 of the bank's funds.

The first embezzlement occurred on April 24, 1913, when \$500 was taken, according to the charges. Another \$500 was embezzled on Oct. 9, 1913. Zacher is said to be in Detroit.

Discovery of the peculations was made by national bank examiners. Zacher is said to have made restitution to the bank. The defendant had a large motor boat on the Illinois river. Joy trips on the boat are said to have eaten up much of the money taken. George Wilson, president of the bank, did not favor criminal prosecution, but the bank examiners notified District Attorney Clyne.

WHICH IS BETTER—TRY AN EXPERIMENT OR PROFIT BY A DIXON CITIZEN'S EXPERIENCE.

Something new is an experiment. Must be proved to be as represented.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now supposing you had a lame back, A lame, weak, or aching one, Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from far-away places. It's different when the endorsement comes from home. Easy to prove local testimony. Read this Dixon case:

J. B. Clark, 722 Highland Ave., Dixon, says: "I had kidney complaint and backache and the doctors seemed unable to do anything for me. Finally, I read of Doan's Kidney Pills and got a supply at Leake Bros' drug store. They cured me and I haven't had any serious trouble since. I consider Doan's Kidney Pills worthy of the highest praise and I gladly confirm the endorsement I gave them some years ago."

Mr. Clark is only one of many Dixon people who have gratefully endorsed Doan's Kidney Pills. MEXICANS ROB AND SLAY 3 AMERICANS

Latter Fight Doggedly Until Ammunition Gives Out.

El Paso, Texas, Nov. 9.—Fighting doggedly behind a wagon barricade until their ammunition gave out, three Americans were killed by mounted Mexicans at Chocoma Pass, Chihuahua, according to word brought into San Sidro, Chihuahua, by a Mexican servant of the American party. He declared the Americans were captured alive, shot and tortured to death and their wagon robbed.

The Americans—Carl Eck, William Bishop and Charles West, all of this city—were traveling from El Paso to Lordsburg, south of Casas Grandes, in northwest Chihuahua through a mountainous and little inhabited country. As the wagon entered the narrow defile off Chocolate Pass, the Mexicans, charging on horseback, opened fire on the party. The Americans, seizing rifles and pistols, dropped behind the wagon and returned the fire, wounding a Mexican, killing a horse and wounding the attackers. The Mexicans withdrew a short distance, pursued by bullets, and dismounted. Hiding in the undergrowth and behind pine trees, they opened a steady fire on the Americans. The horses attached to the wagon were shot down. The wagon was riddled with bullets.

Eck, a boy of 17 years, was wounded in the leg but continued firing as steadily as his companions. The Mexican servant was unarmed, he said, and took the first opportunity to hide. The fighting continued more than an hour. Then the Americans' ammunition gave out and the Mexicans, numbering eight or ten, rushed in. There was a brief hand-to-hand fight and the Americans were bound.

The servant, watching the fight from a distance, said the Mexicans beat, knifed and clubbed their prisoners and then fell to looting the wagon. After they rode away with their two wounded companions, the servant said, he started for San Sidro.

TERRIFIED BY NIGHT RIDERS

Two Raiders Shot by Home Defenders Who Afterward Flee.

Lexington, Nov. 9.—In a fight between one hundred masked night riders and a posse of men defending from attack a helpless family consisting of two women and the young son of one, two raiders were killed and a third may be dead in Butler county, Ky. Troops are likely to be asked of Gov. McCreary today.

Outnumbered, the defenders were finally forced to give way, the raiders going on to the house, dragging the helpless women out and beating them. After finishing with them the raiders then attacked the young man who had given the alarm and so maltreated him that he divulged the names of those who had defended the home. These men were notified that the raiders had learned their names and have fled the country, fearing death.

Little Willie Knew.

Little Willie, the son of a German town woman, was playing one day with the girl next door, when the latter exclaimed:
"Don't you hear your mother calling you? That's three times she's done so. Aren't you going in?"
"Not yet," responded Willie imperturbably.
"Won't she whip you?" demanded the little girl, awed.
"Naw!" exclaimed Willie, in disgust. "She ain't goin' to whip nobody! She's got company. So, when I go in, she'll just say: 'The poor little man has been so deaf since he's had the measles!'"—Edwin Tarrisse, in Lippincott's.

GREAT WAR AT CRUCIAL STAGE

for more troops and the war office is now responding. Italian garrisons have been strengthened in recognition of the seriousness of the situation.

Allies Hold Ground, Says Paris.
Paris, Nov. 9.—The following communication was issued by the war office at night:

"To the north, the enemy appears to have concentrated their activities in the region of Ypres, without result. On the remainder of the line we are holding our ground everywhere."

"On the river Aisne we have reached to the northeast of Soissons the plateau of Vregny, on which we have not yet gained a foothold."

"Elsewhere there is nothing to report."

Germans Take Point, Says Berlin.
Berlin, Nov. 9.—(By way of London)—The following communication from German general headquarters has been issued:

"Our attacks near Ypres and west of Lille continued yesterday (Saturday)."

"An important elevation near Vienne La-Chateau, on the west side of the Arzonne, which has been the object of fighting for weeks past, was taken. Two large guns and two quick-firers were captured."

"For the rest, the foggy day passed calmly on the western theater of the war."

"On the east nothing new has transpired."

FRENCH WIN AERO BATTLE

Ten Planes Engage in Combat Over Rheims.—Germans Flee.

Paris, Nov. 9.—Ten aeroplanes, four German and six French, engaged in an air battle over Rheims on Thursday. The engagement ended in a French victory. For half an hour the aeroplanes maneuvered 2,000 feet above the city, exchanging volleys. The artillery on both sides suspended fire while the city watched the thrilling battle. Finally the German aviators, outnumbered, but speedier than the French, fled, the planes of the machines riddled with shot. One of them dropped when it reached its own lines, and the pilot was killed.

George Plabo, the aeronautical expert, says the Germans have abandoned the employment of the Taube aeroplanes for scouting purposes, and are building only the Aviatik Albatross and Deutsche Flugzeug Werke biplanes.

Life Insurance Agent Suicides.
Pekin, Ill., Nov. 7.—Thought to have become suddenly deranged, Edward Starario, a life insurance agent of Pekin, killed himself by swallowing carbolic acid.

Keep the Barn Warm.

If the farmers of our country would make their stables so warm that water would not freeze in them in an ordinarily cold night, one-third more animals could be kept on the same feed as now used. Tar paper and cheap lumber do not cost so much as hay and grain to keep up animal heat. While paper and lumber cost only once, feed costs every winter.

Raising Sheep.

Don't let the children tease the young ram. The boys think it great fun to see him buck off a little or get ready to butt, but it may make the animal vicious.

Raising goats for market is a profitable business if conducted with good breeds. Scrubs don't pay.

In selling breeding stock, male or female, never let big prices tempt you to let the top-notchers go. If you do you will in time not be able to produce anything but second-rate animals.

If there are any runt pigs in the bunch manage to give them extra feed and care, and in a short time they will match if not outstrip the others in gain.

An Elephant's Sagacity.

An incident which demonstrated the sagacity with which elephants are endowed occurred at Old Meldrum, Aberdeenshire, the other day, on the occasion of a visit of a circus to the town.

At the conclusion of a children's performance an elephant proceeded along a narrow road with a pail in its trunk for the purpose of procuring water from a pump. A little girl chanced to get in the animal's way, and the road being only wide enough to accommodate his substantial body the elephant laid down the pail, picked up the child with his trunk and gently lifted her to a place of safety, afterward resuming his journey to the pump for the water.
